

2020-2021 Impact Report

YOUTH SERVICES

We provided online instruction for **13,485 students**

Puberty Talk

Grades 5/6

"The educators made me very comfortable in the subject and made me more confident in puberty and my body! It was amazing!" – 5th grade student

"It covered a great deal of content in an age appropriate and accessible way, while empowering the children with terms to help them better understand themselves and others." – Elementary school teacher

Teen Talk High School

Grades 9/10

"My favorite part was the Health Educators being super understanding and making me feel like I am in a safe learning place." – 9th grade student

"Thank you for providing students a great learning opportunity about a variety of topics that will help them throughout their high school careers and into adulthood." – High school teacher

Teen Talk Middle School

Grades 7/8

"I enjoyed and respect the calming techniques the educator implemented." – 8th grade student

"The Health Connected instructors were the best part of the course this year. They were kind, knowledgeable, thoughtful and presented the material very clearly." – Middle school teacher

Teen Talk Adapted for All Abilities

Ages 10-15

"My favorite part was the polls because I could test my knowledge on what we learned." – Student in a special education class

"I like how it is being modified and adapted according to the students' needs." – Special education teacher

Change in Student Knowledge by Course (Intro Survey vs. Exit Survey)

PROVIDER SERVICES

We trained **823 teachers** to deliver one or more of our curricula, serving an additional **57,000 students** across California

Total Number of Providers Served

Teachers who attended our trainings gave us **4.6 out of 5 stars**

"I feel a lot more confident about my ability to teach this curriculum in distance learning."
– Training participant

"Love the new information, slides, games, and ways to engage students!"
– Training participant

PARENT SERVICES

We reached a total of **4,344 parents** with our workshops and information sessions

96% of parents say they are able to talk more openly with their child about sexual health and relationships

"This workshop gave me more confidence to talk with my kids." – Workshop participant

"It opened up a lot of areas for dialogue on topics I would have found difficult to otherwise initiate."
– Workshop participant

Total Number of Parents Served
